Learn More Home » Spanish Grammar Exercises (B1-C1) » Prepositions Exercises In this section, we'll explore both simple and compound prepositions in Spanish. Even if you're a master of English prepositions, be prepared for some surprises, as the languages can have significant differences. Here, we'll cover the top 40 most common Spanish prepositions, including when and how to use them. So, what is a preposition? A preposition is a word that shows the relationship between a noun (or pronoun) and other elements in a sentence. It often indicates location, direction, time, or the relationship between different objects. However, prepositions can be tricky because they don't always have direct, simple translations between languages and can often be translated differently depending on how they're used. For instance, the Spanish preposition "en" can mean "in," "on," "at," "into," or "by" depending on the context. Take these examples: * Vivo en Madrid (I live in Madrid). * El libro está en la mesa (The book is on the table). * Estoy en la oficina (I'm at the office). * El gato se metió en la caja (The cat crawled into the box.). * Llegamos en taxi (We arrived by taxi.).
